

# ANTIDOLOR PRO®

THE **FUTURE** OF MAGNETOTHERAPY

# WHAT IS **ANTIDOLOR PRO?**

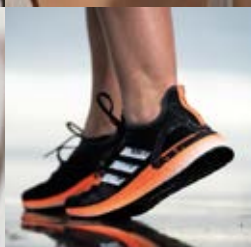

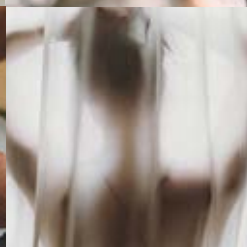

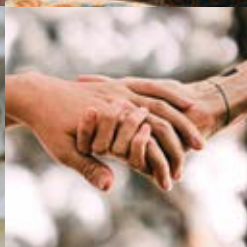

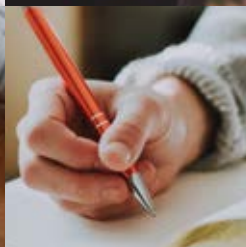

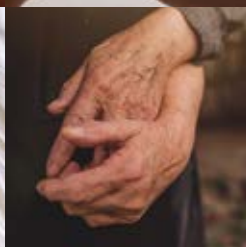

Antidolor Pro is the new frontier of magnetotherapy. It is an ultra-innovative device for home self-treatment equipped with all the features of the best devices: touch-screen, customizable software, exclusive accessories. Equipped with an easy-to-read interface, it is popular with younger people, but is also easy to use for older people. It is designed for acute or chronic pain of the osteo-articular system.

EXPLOIT THE  
BENEFITS OF  
**MAGNETIC  
FIELDS** FOR  
THE TREATMENT  
OF **OSTEO-  
ARTICULAR  
DISORDERS**

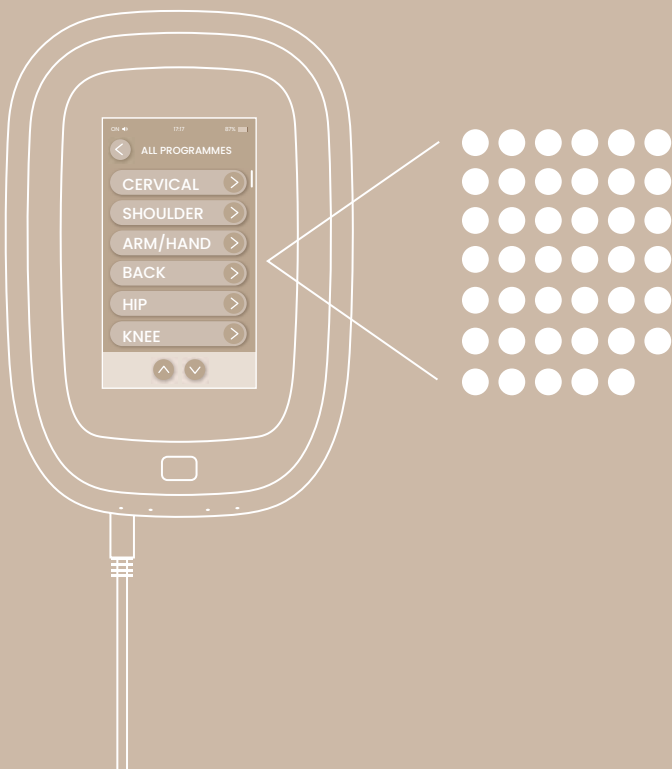

# MORE THAN **40** SPECIFIC PROGRAMS

Antidolor Pro includes more than 40 specific programs against daily pain that affects the osteo-articular system. To help the user select the most suitable treatment, the programs have been grouped by anatomical area. Unlike other magnetotherapy devices, Antidolor Pro is equipped with automatic scanning programs, which improve the effectiveness of the treatment, prolonging its benefits.

This innovative technology has been validated by Dr. Emilio Battisti, from the University of Siena.

# INTUITIVE

THE TOUCH  
SCREEN  
DISPLAY  
MAKES  
NAVIGATION  
EASY

The Antidolor Pro interface has been designed to meet all therapy needs, while maintaining ease of use: from the home page, it is possible to access all the functions, or immediately start the last therapy performed.

# CUSTOMIZED

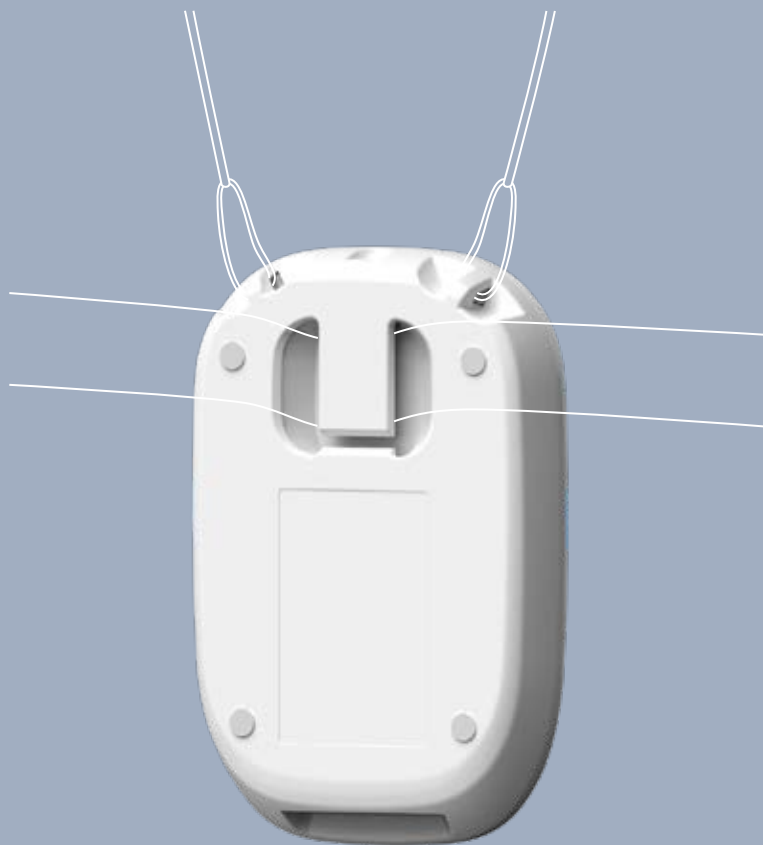

START THE  
THERAPY  
WITH  
ONE CLICK

Antidolor Pro is equipped with an innovative system that modulates the magnetic field. The most important innovation is in the scanning of the programs, which do not follow fixed parameters, but vary according to the pathology to be treated. With the therapy package function, you can set multiple treatments to start automatically one after the other or plan a customized home treatment.

## FREE TO MOVE

Antidolor Pro was developed to ensure complete freedom of movement, even for small movements. It can be worn in two different ways, depending on your needs: you can tie it around your waist, thanks to a sturdy elastic band, or it can be hooked around your neck, thanks to an elegant fabric strap.

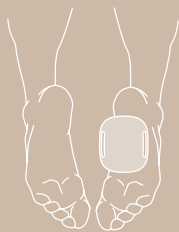

# THE PERFECT POSITION

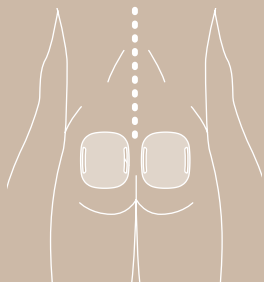

Antidolor Pro is equipped with two latest-generation solenoids, ergonomic and comfortable. Thanks to the practical elastic band, supplied with the device, it is possible to position them in all parts of the body, with the utmost simplicity. The solenoids are designed and manufactured with the aim of enhancing the effect of the treatment.

*Designed by Inovalab*

## SOLENOIDS PATENTED

The innovation of Antidolor Pro does not stop at the software, but includes solenoids. The Antidolor Pro inductor is developed in collaboration with INOVALAB, a spin-off of the University of Padua. The power of the diffuser is more than doubled compared to the old models: it reaches up to 250 Gauss and ensures high penetration of the treatment. To date, it is the most powerful on the market.

The absolute novelty is represented by the monodirectionality of the solenoid. Thanks to this innovation, the user will no longer have to worry about which side to position towards the body (+ or -).

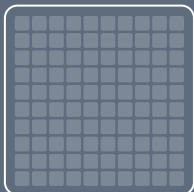

ONE DEVICE,  
MANY  
COMBINATIONS

### **PROFESSIONAL SOLENOID**

Localized magnetotherapy

### **TURBOGEL® SEAT**

Enhanced magnetotherapy

### **SLEEPING PAD INTENSIVE / OSTEOSTOP®**

Total body magnetotherapy

## **CONNECT ALL AMEL PRODUCTS**

Antidolor Pro, thanks to its four independent output channels, which work in high and low frequency, is designed to support different accessories. The user can customize the therapy in the ways and times that are most suitable for him.

YOU CAN USE  
2 PROGRAMS  
AT THE SAME  
TIME

# RELY ON OUR EXPERIENCE

The company designs and produces professional medical devices entirely Made in Italy, which are tested and approved in accredited laboratories. Amel Medical solutions comply with European Directives on medical devices and meet the highest safety standards.
