**ANTIDOLOR PRO®**

THE FUTURE OF MAGNETOTHERAPY

# THE NEW THERAPY AGAINST PAIN

1370

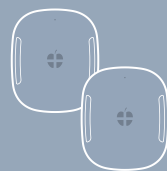

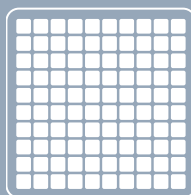

## ACUTE PAIN CHRONIC PAIN

Antidolor Pro includes more than 40 specific programs against daily pain that affects the osteo-articular system. To help the user select the most suitable treatment, the programs have been grouped by anatomical area. Unlike other magnetotherapy devices, Antidolor Pro is equipped with automatic scanning programs, which improve the effectiveness of the treatment, prolonging its benefits.

This innovative technology has been validated by Dr. Emilio Battisti, From the University of Siena

**PROFESSIONAL SOLENOID**  
Localized magnetotherapy

**TURBOGEL® SEAT**  
Enhanced magnetotherapy

**SLEEPING PAD  
INTENSIVE / OSTEOSTOP®**  
Total body magnetotherapy

## DOUBLE THE THERAPY

It is possible to apply the device in multiple parts of the body or with different accessories. Antidolor Pro can be used by two people simultaneously, by selecting the combined therapy option. Thanks to the touch display, setting this combined treatment mode is quick and easy.

## THE TOUCH DISPLAY MAKES EASY TO NAVIGATE

The Antidolor Pro interface has been designed to meet all therapy needs, while maintaining ease of use: from the home page, it is possible to access all the functions, or immediately start the last therapy performed.

## START THERAPY WITH ONE CLICK

Antidolor Pro is equipped with an innovative system that modulates the magnetic field. The most important innovation is in the scanning of the programs, which do not follow fixed parameters, but vary according to the pathology to be treated. With the therapy package function, you can set multiple treatments to start automatically one after the other or plan a customized home treatment.
